

# rejuveniix™

NUTRIFII™  
FIRST STEP THERAPY

An Invigorating  
Energy-Boosting  
Blend of Superfruit  
Extracts and Antioxidants\*

## You: Turbo Charged!

The nutritional choices you make each day can have a profound impact on your life. The glamour of a fast-paced, on-the-go lifestyle quickly dims in the face of energy crashes, mental stupor, and a general feeling of ill health. To counteract this trend, a commitment to a nutrient-rich diet and regular exercise is a logical first step toward wellness. To keep the good momentum going, add a supplement that will boost your energy and support your better health goals to your daily routine.

Rejuveniix brings that boost by supporting mental alertness, energy, and an overall sense of well being. This supplement offers a signature array of antioxidants and natural superfruit extracts combined with a helpful punch of natural energy enhancers. These unique ingredients are specially combined to increase energy without causing a crash or letdown hours later, by working with your body to increase energy naturally.\*

## Experience the Synergistic Effects of Rejuveniix's Super Formula:

- Developed with antioxidants that support natural energy levels and a healthy immune system.\*
- See significant savings with Rejuveniix, where you get many of the powerful superfruits in one great product.

## The Science Behind Rejuveniix

Scientists studying nutrition and wellness are discovering that certain food combinations can deliver a significant nutritional advantage. A report from the U.S. National Library of Medicine stated, “the health benefits of fruits and vegetables are from additive and synergistic combinations of phytochemicals.”<sup>1</sup> This beneficial synergy is the inspiration for the Rejuveniix formula. Recent studies have also shown that the ingredients in Rejuveniix support clarity of mind, cheerfulness, and energy, as well as beneficial antioxidants that contribute to overall health and wellness.<sup>\*2,3</sup>

The way we get our nutrients is also important to our health. Scientists and health experts claim that it is more important to get smaller amounts of antioxidants from multiple sources rather than mega dosages from just one source. This is because different antioxidants work in different ways in order to perform a variety of functions throughout the body. Rejuveniix’s superfruit blend provides a diverse mix of powerful nutrients in order to deliver superior benefits.

## Superfruits for a Super Boost!\*

### Açaí Berry

Açaí berries, found in the Brazilian rain forest, are tiny yet potent berries that have been used for thousands of years to promote overall health, energy, and vitality. The berry comes from a palm tree known by the Brazilians as the Tree of Life. Açaí offers a powerful mix of antioxidant properties and plant sterols to support your health by defending tissues from free radicals, promoting a healthy aging process, boosting immunity, and supporting a healthy heart.\* Açaí contains as much vitamin C as blueberries as well as essential minerals including potassium, calcium, magnesium, copper, and zinc. One bottle of Rejuveniix provides açaí concentrate equal to 6 grams of puree—the equivalent of two wine-size bottles of the leading açaí juice! Rejuveniix provides an efficient way to add these amazing ingredients that support your health to your daily routine.\*

### Mangosteen

Mangosteen is called the Queen of Fruits in Asia and the Food of the Gods in the French Caribbean. It contains xanthenes, a unique class of biologically active compounds possessing antioxidant properties.<sup>4</sup>

### Maqui Berry<sup>5</sup>

Originating from the Patagonia region of South America, this super-antioxidant fruit was consumed by the Mapuche Indians for its medicinal properties and is often credited for its contribution to weight loss by ridding our body of toxins. Maqui berries have a high level of anthocyanines which studies have shown to have antioxidant properties, hence reducing the harmful effects of oxidative stress.\*<sup>6</sup>

### Noni

Similar in appearance to a small potato, with a bitter taste and smell, the noni is traditionally used in Polynesian cultures to treat a wide variety of health issues ranging from menstrual cramps to liver health and urinary tract infections. Noni contains elements beneficial to humans such as fiber, proteins, iron, vitamin C, calcium, and zinc, and recent research has even indicated potential antioxidant<sup>7</sup> effects.\*

### Sea Buckthorn

This berry has a rich history throughout Asia and Europe as a medicinal product. Containing antioxidant vitamins, healthy fatty acids, and other nutrients, sea buckthorn berries also have a high content of vitamins C and E, essential minerals, amino acids, carotenoid and phenolic pigments, and phytosterols.\*

### Goji Berry

Goji berries have been found in China and Europe and in many Chinese medicinal preparations for thousands of years. Also commonly referred to as wolfberry, these berries contain antioxidants, particularly carotenoids such as beta carotene and zeaxanthin, which are helpful in protecting the retina of the eye and supporting eyesight.\*<sup>9</sup>

## Energy Enhancers With Benefits!\*

### L-Theanine

L-theanine is the amino acid found in green tea leaves. Research has shown that L-theanine creates a sense of relaxation approximately 30-40 minutes after ingestion by directly stimulating the production of alpha brain waves, creating a state of deep relaxation and mental alertness similar to meditation.<sup>10,11,12</sup> One of the greatest benefits of L-theanine is that you can use it without becoming sedated in the process.<sup>13</sup> L-theanine doesn't make one drowsy, nor does it promote sleep because this amino acid does not produce theta waves in the brain.<sup>14</sup> It is also key in supporting the immune system.\*

### Green Coffee Bean Extract

Green coffee bean extract (GCBE) has antioxidant properties similar to other natural antioxidants like green tea and grape seed extract. Made from the green beans of the arabica coffee plant, GCBE stimulates absorption of L-Theanine, enhancing its effects. Also, studies have found that GCBE is rich in chlorogenic acid, which helps the liver to process fatty acids more efficiently.<sup>15</sup> In comparison, roasted coffee beans contain cafestol and other compounds associated with the negative effects of using coffee as a stimulant. By using green coffee bean extract, these substances are not present in Rejuveniix.\*

### Hawthorn Berry

Hawthorn has been used in traditional medicine as far back as the first century. According to ancient Celtic folklore, hawthorn could even heal a broken heart. By the early 1800s, American doctors were using extract from the berries to treat heart problems ranging from irregular heartbeat to high blood pressure. Today, hawthorn is still used for many of the same benefits and more. Modern-day studies have found antioxidant-rich hawthorn beneficial for helping reduce damage from free radicals<sup>16</sup> as well as supporting blood flow,<sup>17</sup> improving circulation, and lowering blood pressure.\*,<sup>18</sup>

### Chamomile

Throughout history, chamomile has been valued for its calming effects. Studies show that chamomile possesses anti-anxiety properties<sup>19</sup> and may offer beneficial support for people who suffer from high levels of stress or insomnia.<sup>20</sup> As one of the most popular herbs in the Western world, as well as one of the most popular forms of tea, chamomile is also commonly used to reduce digestive problems,<sup>21</sup> relieve muscle spasms, and as a topical ointment for skin wounds and irritation.\*,<sup>22</sup>

## Our Commitment to Excellence

We are committed to bringing the best health and wellness products to you by extensively researching modern nutritional science. The ARIIX 100% potency guarantee is the cornerstone of our quality, and we are dedicated to our mission to Unleash the Human Potential for Good.

### Supplement Facts

Serving Size: 4 Capsules  
Servings Per Container: 28

	Amount Per Serving	%DV
Superfruit Blend	1580 mg	*
(açai berry extract, mangosteen fruit extract, hawaiian noni fruit, goji berry extract, maqui berry, sea buckthorn juice powder)		
Boost Blend†	210 mg	*
(green coffee bean extract, L-theanine, chamomile flower extract, hawthorn berry)		

\*Daily Value (DV) Not Established.

**Other Ingredients:** Gelatin, rice bran, natural color.
